PREMIUM FAUCET COLLECTION

BATHWARE 2021

WELCOME TO FLOTUS,

With our extensive range of bathroom solutions...

FLOTUS faucets keeps innovating designs and leads bathroom fashion to meet the demands of contemporary users. FLOTUS constructs faucets into modern living space with product series and accessories from a whole new perspective. The exquisite appearance, functions and structural designs of FLOTUS products bring about excellent experience for user, highlighting comfort and convenience in bathrooms. Based on outstanding quality, FLOTUS faucet integrates with a high degree of comfort and unique innovation designs and provides more choices in order to meet the expectation for high quality bathrooms.

FLOTUS always explores users demands, provides practical and intimate function designs and brings bathroom experience with tangible benefits, faucets with comfortable and water saving features, easy and safe operations, constant flow under fluctuate water pressure, shower sets with diverters saving space. FLOTUS's design culture also integrates with more function innovations and ensures simplistic, smooth and elegant styling of faucets at the same time.

FLOTUS has been diving into researchers for many years, aiming at better shower comfort through providing millions of quality bathroom products for many years. It is believed that our bathroom needs comfort and elegance more than exaggeration and excessive luxury. FLOTUS comfort comes from the perfect balance among quality, technology and design. It is a combination of quality materials, advanced manufacturing techniques and function innovation. Moreover, FLOTUS value proposition on its way to become a global faucetware brand.

Body Jet

THE HEART OF FLOTUS FAUCET

MANUFACTURING PROCESS

Casting

A raw and inconspicuous brass bar, the raw material melts in the furnace at over 1000 degree centigrade, the liquid metal now takes on a recognizable form. All these Casting Machine.

Machining

The faucet goes to Machining process. This is computer controlled process. Our cutting-edge machine and experienced workers ensures the gravity casting body has all it's surfaces finished to a high degree of smoothness

Polishing

The faucet enters the polishing stage: The rough casting is polished by hand, to ensure that the surface has an impressive shine, all fit surfaces and edges are polished manually. Automatic polishing machine is also used to increase the production capacity.

Plating

The brass faucet are placed in an electrolytic immersion bath. In one of the most modern plating systems, the faucets now receives a brilliantly shiny chrome layer that ensures long lasting durability. It immerses in several electrolytic baths up to an hour.

Assembling

A single Swing faucet comprises almost 30 individual components. In the final assembly, the specialized workers assemble all parts together. No products leaves the factory without fist being tested for leaks and optimum spray performance.
